

GABRIEL ADVENT BATAN

FULL STACK DEVELOPER

Yogyakarta, Indonesia · bie.ritan112@gmail.com · geb4v.my.id

SUMMARY

Full stack developer with 2+ years of professional experience building and maintaining web applications across the front end and back end. Strong in **PHP (Laravel, CodeIgniter)** for scalable back-end services, with hands-on **React** and JavaScript experience on the front end. Focused on writing clean, reusable, and maintainable code, integrating **RESTful APIs**, and improving application performance and reliability. A collaborative team player experienced in cross-functional, Agile environments, comfortable owning features end-to-end and communicating in English.

PROFESSIONAL EXPERIENCE

Full Stack Developer — Konnco Studio May 2025 – Present

- Build web applications with **React** on the front end and **Laravel** back-end services, delivering features from concept to deployment.
- Develop reusable, maintainable components and **RESTful APIs** that present application data to end users.
- Improve application stability and performance through debugging, optimization, and efficient data delivery.
- Collaborate in a cross-functional team with product and design stakeholders to ship the right features.

Full Stack Developer — PT. Bintang Utara Nusantara Nov 2023 – May 2025

- Developed and maintained internal web platforms using **CodeIgniter 4 (PHP)**.
- Integrated third-party **RESTful APIs** and optimized back-end services for performance and reliability.
- Collaborated with cross-functional teams to enhance system efficiency and user experience.

Lead Full Stack Developer (Intern) — Yayasan Kanisius Jun 2023 – Aug 2023

- Led a small team to develop an internal platform connecting schools with the foundation — owning planning and task allocation.
- Contributed hands-on to development, code review, and testing to meet deadlines.

PROJECTS

KOPEKOMA System — React & Laravel 2026

- Cooperative management system for internal use by a cooperative in Magelang — handling members, savings, and loans, with a **React** front end consuming **Laravel RESTful APIs** for data-heavy financial records and reporting.

TKA Assessment — React & Laravel 2026

- Assessment platform for exams at the Education Office (Dinas Pendidikan) in Magelang, built with **React** and **Laravel** — dynamic forms, scoring logic, and result presentation with component-based UI.

Object Detection with YOLOv8 (Thesis) 2024

- Developed an object-detection model and deployed it as a public web app via **Streamlit** (Python).

TECHNICAL SKILLS

Frontend	React, JavaScript, HTML, CSS, Responsive UI
Backend	PHP, Laravel, CodeIgniter, RESTful API
Mobile	Flutter, Dart
Database	MySQL
Tooling	Git, GitHub, Figma
Practices	Agile, Cross-functional collaboration, Code review, Performance optimization
Languages	English (professional working proficiency), Bahasa Indonesia (native)

EDUCATION

Bachelor's Degree in Informatics — Cum Laude · Sanata Dharma University 2020 – 2024

- Relevant coursework: Software Engineering, Object-Oriented Programming, Database Concepts & Design.
