

GABRIEL ADVENT BATAN

BACKEND WEB DEVELOPER

Yogyakarta Indonesia | bie.ritan112@gmail.com | www.gebav.com

SUMMARY

Software developer with a solid foundation in backend engineering and practical experience in building web applications using Laravel and CodeIgniter. Skilled in PHP, JavaScript, and database management, with a strong interest in solving real-world problems through technology. Proven ability to contribute in both team-led and independent projects across internships and professional roles. Eager to continue growing in a dynamic environment and contribute to the development of innovative and efficient software solutions.

PROFESSIONAL EXPERIENCE

- Fullstack Developer | Konnco StudioMay 2025 - Present
- Building web applications using React and backend services with Laravel.
 - Implementing responsive user interfaces and scalable backend architectures.
 - Debugging and troubleshooting issues to ensure application stability and performance.
- Fullstack Developer | PT. Bintang Utara NusantaraNovember 2023 - May 2025
- Developing and maintaining internal websites using CodeIgniter 4.
 - Collaborating with cross-functional teams to enhance system efficiency and user experience
 - Integrating third-party APIs and ensuring high-performance backend services.
- Lead Fullstack Developer (Intern) | Yayasan KanisiusJune 2023 - August 2023
- Led a team to develop an internal website connecting schools under Yayasan Kanisius with the foundation.
 - Directed project planning and task allocation to ensure clear team objectives and deliverables.
 - Contributed to coding, debugging, and testing to meet project requirements on time.

ACADEMIC PROJECTS

- Object Detection with YOLOv8 AlgorithmJanuary 2024 - June 2024
- Developed a model using the YOLOv8 algorithm for object detection as part of a thesis project and integrated the model with the Streamlit framework to create a web-based interface accessible to the public.
- Count SoundFebruary 1 - February 10, 2024
- Built an application using Laravel 10 to assist in vote counting for legislative candidates during the 2024 elections in Wailolong, East Flores.
 - Designed to streamline and simplify the vote tallying process.
- Toko SembakoNovember 2022 - December 2022
- Contributed to a final project for the Software Engineering course, developing a basic PHP-based system for a grocery store.
 - Worked as part of a four-person team, focusing on core functionality and user interface.

SKILLS

Programming	Frameworks & Library	Tools & Platforms	Additional Skills
PHP, JavaScript, HTML, CSS, MySQL, Python, Dart	Laravel, CodeIgniter, Streamlit, Flutter	Git, GitHub, Figma, API Integration, Database Management	Leadership, Teamwork, Problem-Solving, Project Management

EDUCATION

- Bachelor's Degree in Informatics, Cum LaudeAugust 2020 - July 2024
- Sanata Dharma University, Yogyakarta
- Relevant coursework: Software Engineering, Object-Oriented Programming, Database Concepts and Design
